## MAINE TAKES LEAD IN 'FAMILY' PLAN FOR TREE FARMERS

Launching of the third Tree Farm Family in Maine gives the Pine Tree State national leadership in the family movement. D. B. Demeritt, chairman of the Maine Committee of American Forest Products Industries, says.

The Tree Farm Family plan is an arrangement whereby a forest industry gives technical forestry services to a group of forest landowners who, in turn, give the company first option to buy their harvestable timber.

Newest family to be created in the state is that of Oxford Paper Company, Rumford, whose 67 landowner members own 28,000 acres of forest land.

"Launching of this third Tree Farm Family is proof that growing timber under Tree Farm principles is a profitable enterprise," Demeritt said. Members of the three families in Maine now total 226 landowners, whose timber covers a total of 93,000 acres.

The Tree Farm Family concept was first introduced in Maine in 1954 under joint sponsorship of Diamond Match Company, Oakland, and Hollingsworth & Whitney Division of Scott Paper Company, Winslow. A second was launched last year by S. D. Warren Company, Cumberland Mills.

William H. Chisholm, president of Oxford Paper Company, pointed out that the small woodlot represents approximately 35 per cent of Maine's forest land and that these woodlots are owned by some 75,000 people.

"These 75,000 people will play an even more important part in the future of our industry in Maine than they have in the past," Chisholm declared. "Oxford wants to help sell the Tree Farm concept to more woodlot owners and aid them in growing and handling their forests by furnishing on-the-ground technical assistance, for the primary goal of tree farming is to provide a perpetual maximum supply of forest raw materials."

## COMMENTS FROM THE TOWN MANAGER'S OFFICE

I wonder if we in Bethel realize the many things we have to be truly thankful for in our town. Do we realize we have one of the most picturesque areas in the State of Maine? Do we appreciate that we have a high type of people living in town and one of the better school systems of Maine? Are we conscious that all of our mills are running, with very few people in need of employment? Probably most everyone knows that the kind-hearted people in town have donated various items of food that are to be distributed to the few families who may be in need of some assistance at this time.

Above all this do we fully realize we in America have the Greatest Country in the world and are enjoying the greatest prosperity in our history, that we are free to worship in any way we choose.

May we truly offer our sincere thanks for these things.

## COUNTY OIL INDUSTRY OFFICIALS CHOSEN

W. R. Waterhouse of Rumford was elected chairman of the Oxford County Petroleum Industries Committee at a meeting held recently in Auburn.

L. T. Snowdon, executive secretary of the Maine Petroleum Industries Committee, led the group in a discussion of the new federal highway program and its impact on local oil dealers and gasoline consumers.

Snowdon pointed out that the program is being financed largely through an increase in the federal gasoline tax to three cents per gallon. Combined with the state tax on the product, increased by the 1955 Maine Legislature to seven cents per gallon, this brings the total tax imposed on each 10-gallon purchase to a full dollar, he noted.

"Maine motorists are now paying the highest total gasoline tax east of the Mason-Dixon line and north of the Mississippi River," Snowdon said. "Only a few states in the deep south and Montana in the Rocky Mountain area have a gasoline tax rate as high as ours—nine cents," he added.

The group urged that local governments be encouraged to apply part of their share of state highway grants to matching federal allocations for secondary roads. It was contended this would have the effect of doubling the value of local road money and at the same time would help the state match all available federal funds.

Other oil men elected to committee posts included:

Legislative Committee — Chairman, Henry Packard, Norway; Kimball Ames, Bethel; Frank Ross, Mexico; William Kilroy, Rumford; Philip Ramsey, Fryeburg; Howard A. MacKillop, Bryant Pond.

Public Relations Committee — Chairman, Leo Marszanski, Rumford; Howard Averill, South Paris; Pete Chaplin, Bethel.

## INCOME TAX FORMS TO BE READY SOON

Federal income tax forms for the preparation of 1956 returns will be available about December 3 in reasonable quantities to accountants, attorneys and other professional personnel who need advance copies. Whitney L. Wheeler, district director of the Augusta office of the Internal Revenue Service, said today. A few advance sample copies for study are available now.

Individual taxpayers will receive their forms and instruction booklet through the mails on the same schedule as last year, during late December or early January, Mr. Wheeler said.

There are very few changes in the form other than minor revisions for clarity and simplification. Instruction booklet which accompanies it has been changed, however, to provide a line-by-line series of explanations, keyed to the arrangement of the form and its sequence of entries.

New type-faces have been used in both form and booklet, Mr. Wheeler said, and should, with the simplified treatment and explanations, make preparation of a return much easier than in past years.

The Internal Revenue Service will sponsor the printing of 165 million copies of Form 1040 and 11 million of Form 1040A, the simplified punch-card for incomes of less than \$5,000.

Members of professions requiring advance copies of forms should write the district director at 221 State Street, Augusta, for study samples immediately available or bulk shipments after December 3.

## LOANS TO PART-TIME FARMERS EXPLAINED

Provisions of the new farm operating and development loan program for farmers who have part-time employment off the farm were explained this week by Elwyn R. Morrow, the Farmers Home Administration county supervisor for Oxford County.

He said that although the main purpose of these loans is to help farmers who live in areas designated for the rural development program, there may be other farmers having part-time employment off the farm who may be eligible for operating and farm development loans.

To be eligible the applicant must be of legal age, a citizen of the United States, unable to get credit from other sources and have had farm experience or training sufficient to indicate reasonable prospects of continuing successful farming operations. He must be an established farmer, conducting substantial farming operations and spending a major portion of his time farming. The applicant must have a dependable source of outside income.

The loan applicant's farm must be of such size and productive capacity that the expected income, plus the income from part-time employment, is sufficient to pay farm operating and living expenses, pay debts, and provide a reasonable reserve for emergencies.

The county committee will determine the eligibility of each applicant. William C. Chapman, Erville A. Fernald, and Arthur L. Cummings are the members of the Oxford County Farmers Home Administration committee.

## CITIZENS URGED TO BACK ATTACK ON TRAFFIC ACCIDENTS

"I strongly urge every Maine citizen to participate in the 'Back the Attack on Traffic Accidents' program which is being sponsored on a nationwide front by the National Safety Council," said Governor Edmund S. Muskie today.

Pointing out that the Nation is headed for an all-time high in traffic fatalities, the Governor issued an earnest plea to all drivers and pedestrians to co-operate with the Governor's Committee on Highway Safety which is actively supporting the "Back the Attack" program which gets underway, December 1.

"It is indeed fitting that this long-range program should have its inception in the month of December," said Governor Muskie. "This holiday season has always been extremely dangerous, traffic-wise."

The Governor emphasized that the "Back the Attack" program is not a short-term affair. It will continue through 1957 with emphasis placed on timely and seasonal problems of highway safety. In fact, the Governor stated that plans call for a continuing attack program until the upward trend in traffic accidents is reversed.

"We cannot hope to win this battle for safety on our highways without the support of every citizen of our State," continued the chief executive. "Participation by lip-service alone is worthless. We must have active support, if we are to win this fight...which is, literally, a fight for life. Active participation in this program entails three things on the part of each one of us:

1. Support for traffic officials.
  2. Participation in local safety activities.
  3. Voluntary compliance with the law.
- "I appeal to all civic, fraternal and patriotic groups to continue their magnificent support of our safety efforts, and I ask every individual in Maine to join this concerted drive to provide new impetus to the war against accidents," concluded Governor Muskie. "Make it your personal responsibility to 'Back the Attack!'"

Come and bring your family to the Jack Wytzen Word of Life Rally at the Bethel Theatre Tuesday, Nov. 27, at 7:30 p. m.

This thankful Hungarian family of fourteen offered a prayer of thanksgiving as they sat down together recently for their first dinner in their new home in Chicago. One of the largest family groups to immigrate to the United States under provisions of the Refugee Relief Act of 1953, the father's visa represented the 30,000th person to come to this country under auspices of Catholic Relief Services-National Catholic Welfare Conference. It brought the overall total of homeless refugees resettled by the agency in free countries throughout the world since 1945 to 200,000, marking the greatest effort of any voluntary agency.

They are Mr. and Mrs. Bela Roman with twelve of their fifteen children ranging in age from 8 years to 26. Three daughters remained in France—two of them nuns and one married. With the assistance of the Hungarian Catholic League a home and job assurance have been provided for the family.

Roman, who is 58, and his 48-year-old wife, Elisabeth, fled with their eleven children to Germany from their native Hungary in 1944, when Russian troops entered the country. Their flight was prompted by the father's fear of communist reprisals. As a young man, in the Hungarian Royal Army in which he served 28 years, he had taken an active part in the 1919 uprising against the communist regime of Bela Kun. Their nomadic existence finally took them to Vosges, France, from which place they immigrated.

Here they will begin a new life eagerly awaiting the day they can become American citizens. Mrs. Roman stated, "It was only the grace of God that let us rear our family through these years."

Raymond Lovejoy, Farmer-Fieldman of the Agricultural Stabilization and Conservation Program. This will allow land-owners a payment of \$24.00 per acre to establish the trees and an annual rental payment from the Soil Bank Program of \$2.70 per acre per year.

The Monmouth Canning Company of Canton plans a large drainage project on some of their land on Canton Point. A 1000 foot drainage ditch is planned for this fall. Some grading and land leveling will also be done to ready a 50-acre field for corn production next summer.

Harry Huntress of South Hiram is planning the construction of about 700 feet of drain on his farm this fall.

Other projects still to be completed this fall include tree planting on the Sam MacGregor farm in Hartford; a pond on the Ernest Frechette farm in Norway and a drain on the Ralph Eaton farm in Brownfield.

We have already received many orders for the use of the Oxford County Soil Conservation District tree planter for use next spring. Trees will be scarce, but any interested person should contact the Soil Conservation Service office for details.

WORSHIP TOGETHER EVERY WEEK!

You know the hymn—"How firm a Foundation?" Of course you do. But it's more than a hymn. To many it is a way of life.

The foundation is faith. Faith that gives every day a shining new quality. Faith that provides a strong abelter in time of need. Faith that sustains you in sickness and trouble. Faith that makes life a great adventure, truly worth living.

You find faith as a member of a family, as a member of a community. Worshiping together every week, with those you love, with others who believe as you do—gives you strength to carry through with hope and courage.

You can build a stronger, richer life—on a firm foundation of faith. Worship together this week... every week!

## SOIL BANK APPLICATIONS

DATE EXTENDED TO NOV. 30

Extension of the final date for filling requests for a Soil Bank Contract in 1956 to November 30 is announced by the Agricultural Stabilization and Conservation County Committee. In making this announcement, the committee states that special emphasis is being placed on the forest tree planting practice of the Soil Bank program. Under this practice, there is cost-share assistance of 25% per acre for establishing the trees, in addition to the annual payment which in most cases will be \$2.75 per acre.

Records on file at the ASC Office indicate that several hundred acres of land in the county that were once used for crop production should go into the Soil Bank under the forest tree planting practice because of the high cost-share assistance available to the owners of this land. In order to supply the necessary planting stock for this and other counties in Maine, immediate expansion of the state forest tree nursery production is underway to make available ten million trees for planting in 1956, according to information received at the county office.

## BETHEL BOWLING

The A & P won a close match last Wednesday night, against the crack Legion team by 10 pins. Bob (Fix It) Croteau had high for the evening with 218. Bill Robertson, of Windy Hill, was close behind with 204. The Lions trimmed Central Alleys by 45 pins. Potato Knocker Chapman was really hot with a three string 230. Joe (Have you seen my operation) Hillier, had a strong 300, and Pappy Brooks, a 207. Ken (Pretty Boy) Delano helped keep the Alley team in business with a 211, but the old pros were just two much for them.

The Grammar School League was formed Saturday morning with a large turnout of 18. Four teams were picked and the competition will start next week. Bob Croteau, Ken Delano and Dick Young acted as coaches and a great improvement was seen in just one forenoon.

Pressure increases sharply as the ocean descends. At four miles down, for example, ocean water crushes with a weight 640 times that of the atmosphere, or four and a half tons to the square inch. Man can stand little more pressure under water than 88 pounds to the square inch.

## WIDE, WONDERFUL WORLD

BY FRANKLIN J. MEINE

ALTHOUGH most of us insist that we're not superstitious, we might feel a bit troubled if Bellboy No. 13 took us to room 313 in a hotel. In fact, a lot of hotels — and office buildings — don't have a 13th floor. Other superstitions perpetuated by folks: Thunder sours milk, porcu-

ples shoot their quills, cats' eyes shine in the dark. In modern life superstition still is widespread. Many have "favorite" seats in trains, airplanes and buses. Today, when you shake hands, you use the right hand. That's because in earlier times the left hand was considered evil.

Woman who don't care to bake their own bread may be interested in the bread-fruit tree of the East Indies and the Islands of the Pacific. There the breadfruit tree constitutes an important source of food. The tree grows to a height of about 40 feet. The fruit is the size and shape of a melon with knobbed rind. The yellow fruit contains a thick white fluid which is pleasant and nourishing, but it is generally allowed to develop to more solid condition before being used as food. It is usually cooked in a hole in the ground; the core is removed. Then it is placed on heated stones for half an hour.

Elephants on Sumatra have habits irritating to managers of pioneering oil companies. Sometimes the big beasts rip up unburied oil pipes or pull down telephone wires as they scratch their backs against the poles.

## LETTERS TO THE EDITOR

Dear Sir:

I am interested in finding out as much as I can about Larry Gorman, "the man who made the songs." A native of Prince Edward Island, he was a woodman, a singer, and a poet of the lumber-camps, first along the Miramichi and later here in the State of Maine. I wonder if any of your

readers ever knew him or, at least, have heard about him. I would appreciate hearing from anyone who can tell me anything about him.

While I am primarily interested in Larry Gorman, I am also interested in getting hold of the names and writings of other woodman-poets and singers. I will welcome information on anyone who worked in the woods and wrote songs and poems about his work and life there.

Often I have found that people have hesitated to send information because they felt that it was too trivial or unimportant to be of interest to me. Let me assure any

prospective letter-writers that any and all material may be extremely important, and even a fragment of a poem or song or a half-remembered name may be just what is needed to help put the pieces of the puzzle in place. My appeal is for all the information I can get, and I will be most grateful for anything anyone sends me on Larry Gorman or any other woodman-poet.

Sincerely yours,
